CAUSE NO. 42532

FEB 20 2004

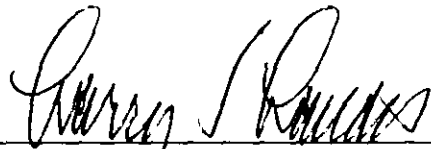

INDIANA UTILITY
REGULATORY COMMISSION

You are hereby notified that on this date, the Indiana Utility Regulatory Commission has caused the following entry to be made:

On October 31, 2003, Vectren Energy Delivery of Indiana, Inc. ("Vectren") filed the above-captioned Petition. In its Petition Vectren states it is currently evaluating the impact of the Commission's recent order in Cause No. 42418 on its Integrated Resource Plan ("IRP") process. Further, Vectren is awaiting the Commission's decision on its rehearing petition. The Petition states that the timing and use of DSM, as well as other resource options, remains somewhat uncertain until such time as the outcome of the DSM Settlement is known. Thus, pursuant to 170-IAC 4-7-3(c), Vectren requests an extension of time to submit its IRP to permit the Commission to consider the rehearing and Vectren to consider its various resource alternatives. In recognition of the above, Vectren is seeking an extension of time up to and including 45 days after the Commission issues an order on its rehearing petition.

The Presiding Officers having reviewed the information contained in Vectren's Petition and being duly advised in the premises, hereby GRANT Vectren's request for an extension of time up to and including 45 days after the Commission issues an order on its rehearing petition to submit its IRP.

IT IS SO ORDERED.

Larry S. Landis, Commissioner

Abby R. Gray, Administrative Law Judge

Date: February 20, 2004

Nancy E. Manley, Secretary to the Commission
